

An Important Message For Service Subscribers (and anyone else who is not receiving requested information):

People on Comcast email (and other ISPs owned by Comcast) are having difficulty receiving my service and other legitimate emails. I've seen this happen in the past (e.g. Earthlink). They must have "upgraded" a spam filter somewhere in the pipeline. Worst case, you'll have to open up a free Yahoo! or Google email (only, e.g. hotmail doesn't work). Please contact me ASAP if you would like me to switch your email from Comcast to a Yahoo or Google address.

Email me or call me if you have any questions.

Thanks and sorry for the inconvenience while we work to resolve this issue!

Dave
